- formulation development
- scale-up
- manufacturing process validation
- methods development and validation
- ICH stability test

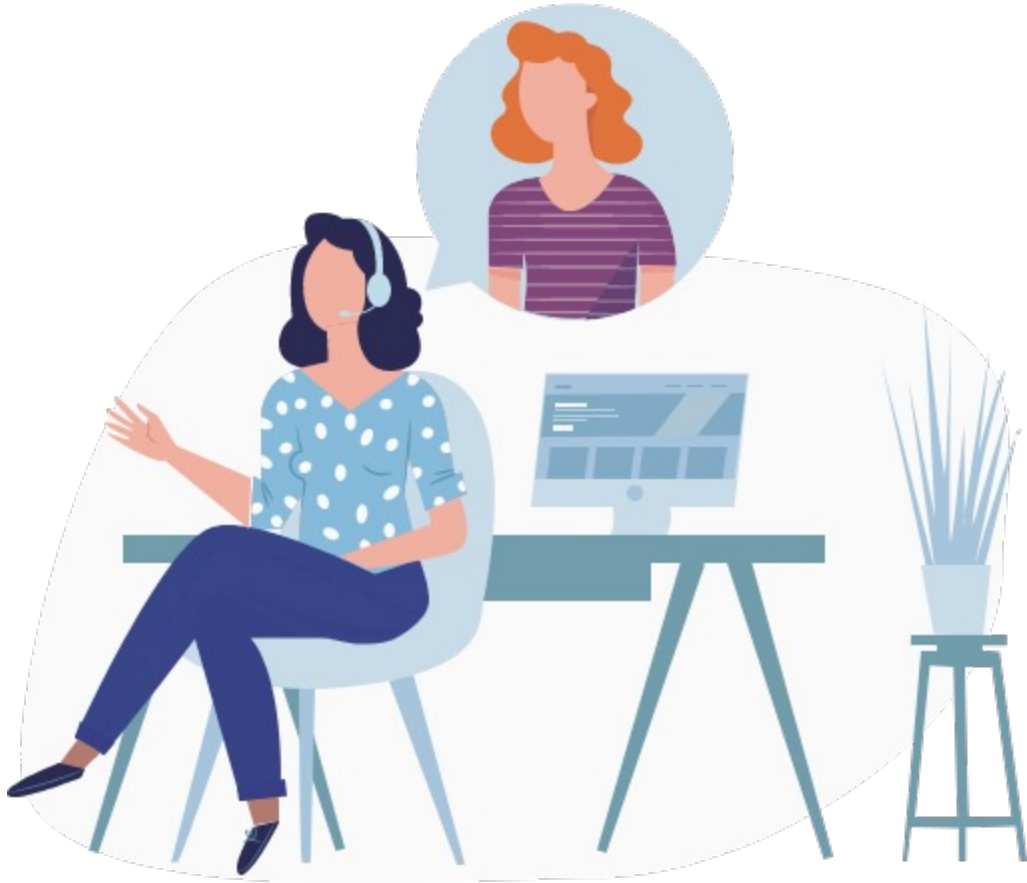
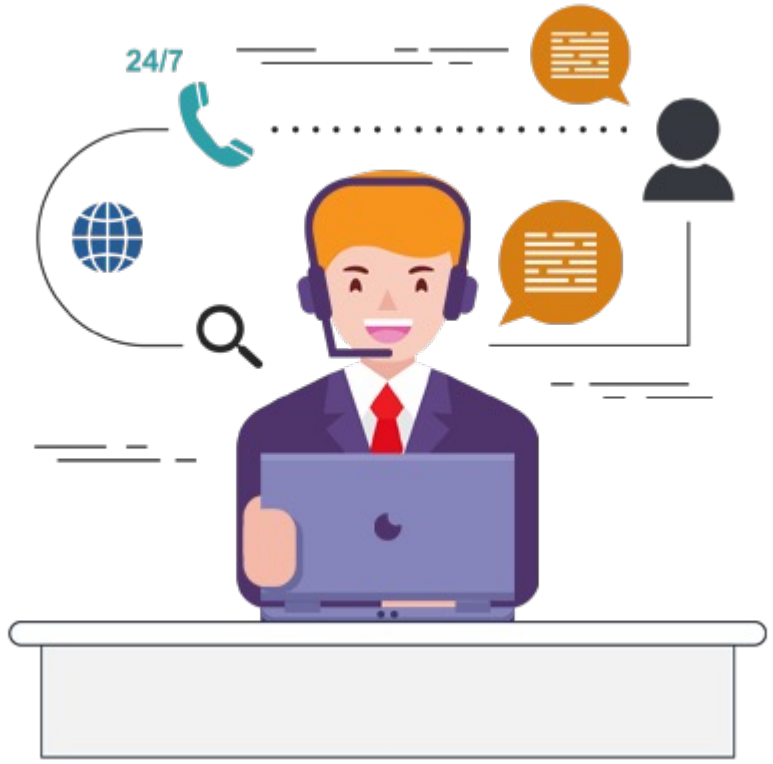
From design to finished product, we support our customer's project all the way.



AS LICENSING OUT:



- We out-license our registration dossiers, our registration dossiers, for the partners to register and apply for a Marketing Authorisation in their country with their trademark.
- We are also willing to follow the registration procedure up to the granting of the Marketing Authorisation on behalf of our partner (in any) and then transfer the related MA once obtained directly to our partner.

In both cases, the partner becomes the MA holder and finished product manufacturer.

We grant professional regulatory support from a pre-approval to the post-approval stage for the full lifecycle of any product.

FAMBILI PHARMACEUTICALS

OUR PRODUCTION FACILITY IN UNITED KINGDOM

Noumed Life Sciences Limited

Registered Office Address:

Noumed House

Shoppenhangers Road

Maidenhead, SL6 2RB

United Kingdom

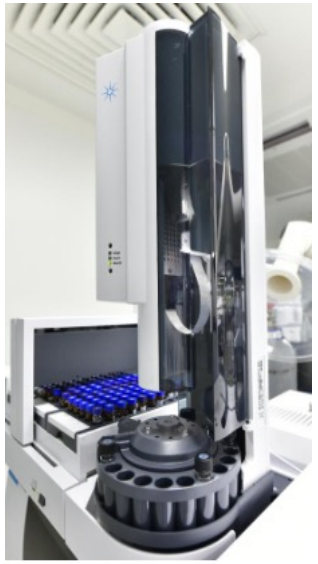
Phone: +44 (0) 20 3399 8900

Email: info@noumed.co.uk

An MHRA accredited Manufacturing Facility based in Maidenhead, UK.

Noumed's manufacturing facility has the capability to manufacture various solid dosage forms which include plain and coated tablets, and hard gelatin capsules. The facility is equipped with R& D suites to aid New Product development, undertaking feasibility and optimization trials and for manufacturing small batches for clinical trials etc.

All production takes place in isolated ISO-Class 8 / Class D certified rooms in accordance with cGMP and FDA guidelines. Additionally, all airfiows are regulated through the use of airlocks and pressure differentials.



Manufacturing is supported with in-process storage areas and material handling equipment to improve efficiency. The facility has 3 suites for tablet manufacturing and 2 suites for capsule manufacturing.

The tablet manufacturing suite has 3 independent granulation areas supported by tablet compression machines and coating pans. The 3 granulation suites are equipped with a Vacuum Transfer System.

The 2 capsule manufacturing suites are fitted with automatic capsule filling lines. The manufacturing facility is equipped with a range of cage blenders from 50 litres to 1200 litres, and has a dedicated area for formulation/product development."

OUR PRODUCTION FACILITY IN TURKEY

Cerkezkoy

The World Medicine facility in Cerkezkoy, in the province of Tekirdag, was completed in 2020. The facility is our flagship investment, producing a range of pharmaceuticals including liquid sterile forms, lyophilized sterile forms, solid forms, semi-solid forms, aerosol inhalers and non-sterile liquid forms. Equipped with machinery which exceeds world standards using the latest technology, the facility is controlled with systems that meet the strictest production standards in the international arena in terms of hygiene and security.

Providing services with an annual production capacity of 1.3 billion boxes (13.6 billion semi-products/year), our factory operates on an area of 50,000 m2 with competent staff with their finger on the pulse of global dynamics, who possess extensive production knowledge and who work to a quality policy of product and service perfection.
